

ENDGAME

The back office for multi-store retail: an overview

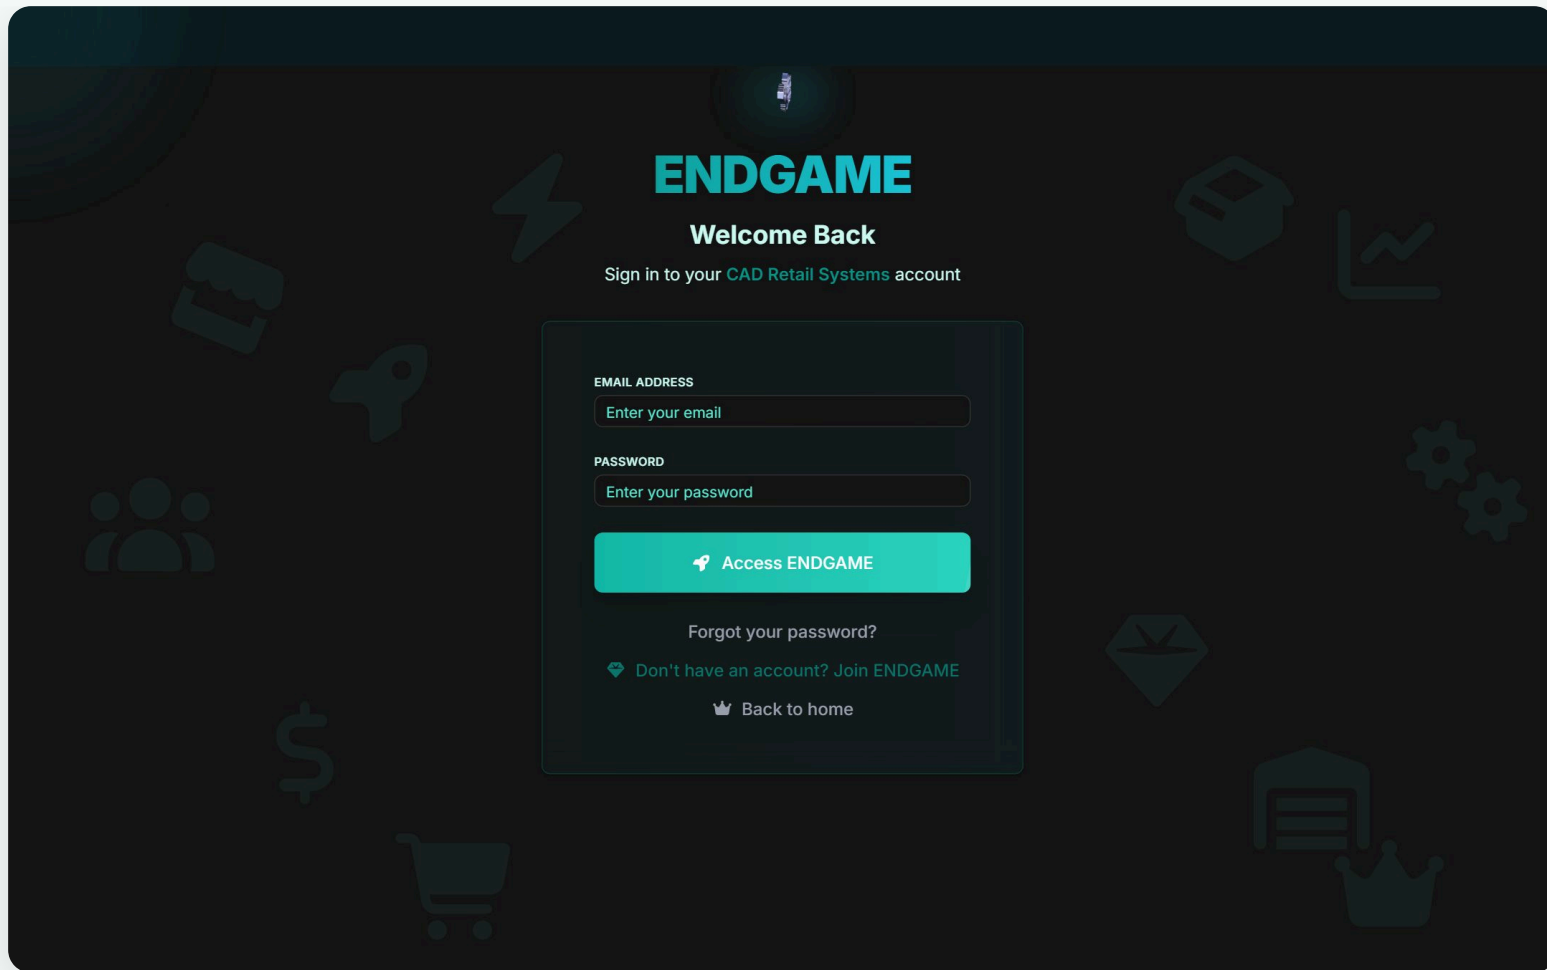

21 October 2026 · Screens shown use fictitious demo data

CAD RETAIL SYSTEMS

01 Sign in

Staff sign in with their own login, and the menu only shows the areas their role allows.

The image shows a login interface for a system called "ENDGAME". The background is dark with various faint icons like a rocket, a shopping cart, a crown, and a dollar sign. At the top center, the word "ENDGAME" is written in large, bold, teal letters. Below it, the text "Welcome Back" is displayed in white, followed by "Sign in to your CAD Retail Systems account" in a smaller white font. The login form is centered and contains two input fields: "EMAIL ADDRESS" with the placeholder "Enter your email" and "PASSWORD" with the placeholder "Enter your password". Below these fields is a teal button with a white key icon and the text "Access ENDGAME". Under the button, there is a link "Forgot your password?" and another link "Don't have an account? Join ENDGAME" with a teal diamond icon. At the bottom of the form is a link "Back to home" with a white crown icon.

04 An order

An order holds the supplier, the delivery store and the lines, in units or packs, with costs and totals worked out as you go. It reaches the store once it is finalised.

The logo of the South African Government, featuring the national flag and the text "SOUTH AFRICA" and "GOVERNMENT OF SOUTH AFRICA".

08 Item GP

Item GP shows sales, cost and gross profit by store, department, supplier or item, for any period. Any analysis can be pinned, drilled into, or shared as a link.

Group stock. Group stock shows what every store holds, item by item, filtered by department, supplier or category, and what that stock is worth.

09 Products

The product master holds every item, with its descriptions, supplier, department and categories, pack size, flags and barcodes.

Item GP 2D. Item GP 2D puts two periods side by side, such as this October against last October, and shows the difference for every store.

Listing > Products

Product code is readonly. Save will queue send-to-stores when MasterSync products are enabled.

14 Cost changes

Cost changes record a new supplier cost from a date, so every margin and GP figure starts from the right number.

Listing > Product Changes
